Education

National Institute of Technology, Rourkela

Master's of Technology in EC with Specialization in Signal & Image Processing (CGPA: 8.52)

August 2025 – Present

Rourkela, Odisha

Shri Mata Vaishno Devi University

Bachelor of Technology in Electronics and Communication Engineering (CGPA - 7.54)

August 2020 – May 2024

Katra, Jammu & Kashmir

Relevant Coursework

- Data Structures and algorithms
- Python
- Computer Networks
- C/C++ Programming
- Operating System
- Cloud Computing

Work Experience

Whizlabs

May 2024 – August 2025

Cloud Labs Engineer

Remote

- Architected an AI support agent using Vector DBs (RAG) and AWS/GCP docs, automating 65% of tickets and reducing Median Time to Resolve (MTTR) by 42%.
- Engineered a Python-based serverless abuse detection system that reduced malicious resource incidents by 78%, directly saving 28% in monthly cloud overage costs.
- Optimized cloud infrastructure by migrating Bash teardown scripts to Python runtime services, cutting server deletion costs by 35% via targeted resource scoping.

Activist.org

Open-Source Contributor, 2023

Software Engineer (Volunteer)

Remote

- Enhanced test coverage and automation for a multilingual Django-based platform to ensure robust functionality across multiple locales.
- Contributed to CI/CD improvements by refining workflows for automated builds and testing.
- Collaborated with a distributed open-source team to prioritize features, address bugs, and ensure maintainability of code.

Projects

BridgeTalk

January 2025 – Present

Flutter, FastAPI, Appwrite, Firebase, GCP

AppStore - PlayStore

- Developed a scalable Multi-Tenant SaaS architecture using Appwrite for authentication, database management, and real-time subscriptions with role-based access control (RBAC) managing 500+ users.
- Integrated serverless functions for asynchronous audio transcoding and translation, preventing main-thread blocking and ensuring low-latency UI updates.

Achievements/Certifications

- Earned 2 Sprint Star awards in May 2023 and September 2023 during internship for outstanding performance.
- Received “Nischay: The OUTSTANDING Distinction” in Q1 2024 Quarterly Awards for exceptional contributions.
- Ranked within the top 2% of candidates in GATE 2025, demonstrating technical excellence.
- Certified in GCP Associate Cloud Engineer (ACE), Professional Cloud Architect (PCA), AWS Cloud Academy Cloud Foundations, HashiCorp Terraform Associate, and Certified Kubernetes Application Developer (CKAD).

Technical Skills

- **Languages:** Python, Dart, C/C++, Bash, SQL
- **Operating Systems:** Linux, Windows, MacOS
- **Developer Tools:** VS Code, GitHub Actions, Docker, Terraform, Prometheus
- **Technologies/Frameworks:** Flutter, FastAPI, Kubernetes, GCP, AWS, Firebase, Appwrite, MongoDB

Extracurricular Activities

Google Developer Student Clubs (GDSC)

September 2023 – April 2024

Cloud Lead

Shri Mata Vaishno Devi University

- Organized multiple sessions on Google Cloud technologies as Cloud Lead of GDSC SMVDU Chapter.
- Mentored and helped 7 students successfully achieve the GCP Associate Cloud Engineer (ACE) certification.
- Guided and supported a team of 8 students in participation and project development for the GDSC Hackathon.
